SUMMARY

Having a passion for computers has led me to expand my knowledge in computer science from a young age. I was absolutely attracted to computer software and games which later developed into an interest in programming.

I am mostly self-taught, as well as having a fundamental license degree in computer science from the Higher Institute of Computer Science of Mahdia. I also have some experience developing mobile and web applications as a freelancer.

SKILLS

Computer Vision Machine Learning & AI Flask/Django

Mobile Dev (Flutter) MongoDB Firebase SQL

Data Structure and Algorithms API's GitHub

EXPERIENCE

Python Developer

Freelance

2018 - Ongoing

- Modified existing software to correct coding errors, upgrade and improve overall performance.
- Implemented simple machine learning algorithms (Linear Regression, Decision tree, Random forest).
- Implemented inceptionV3 model for face shape classification (end of studies project).
- Implemented OpenCV and mediapipe for extracting face landmarks (end of studies project).

Flutter Developer

Freelance

2021 - Ongoing

- Modified existing projects to correct coding errors, upgrade and improve overall performance
- Implementation of Firebase
- Design and developed 2 apps
- Integration/WWidget/Unit Testing

PROGRAMMING

Python

Proficient

Dart

Advanced

HTML/CSS/JS

Advanced

SQL

Intermediate

C/PHP/VB.NET

Rusty

EDUCATION

Bachelor degree in Computer Science

Hedi SOUSSI high school - Sfax

july 2018

Fundamental License in Computer Science

Higher Institute of Computer Science - Mahdia (ISIMA)

10/2018 - 07/2021

STRENGTHS

Problem Solving

Calculus 1 & 2

Critical Thinking

Committed to lifelong Learning
